Dear Dr. Henney,

I'm writing to let you know that I am very much in favor of the FDA promptly approving claims filed for saw palmetto and the symptoms of benign prostatic hyperplasia; psyllium husk seeds and the risk of heart disease; folic acid, vitamin B6 and vitamin B12 and cardiovascular disease; and vitamin E and the risk of cardiovascular disease.

This is very important to me and my family and I hope we will see this happen in the near future.

Sincerely yours,

Pauline P. Root
